

AAHP Technician Report
January 16, 2009

Fall Seminar 2008

The sign in sheet of the Fall Seminar 2008 indicated that only 27 people (of which 20=74%) attended technician only events. The 2008 membership roster had 82 names. 7 new people attended the Fall Seminar.

I have a copy of the Membership letter that will be mailed out today pending approval by the board. I have 82 letters to mail for a cost of ~\$37.00.

Carl Anderson has updated the AAHP webpage to include the membership letter. Thank you. What is the process to include a newsletter on the website?

One goal is to increase membership and activity within the organization and at the Fall Seminar that benefits pharmacy technicians. One way to do that is to have continuing education programs with objectives for both pharmacist and technicians. This will reduce the cost to the organization and will satisfy continuing education requirements for AR State Board of Pharmacy and PTCB.

A second goal for this year is to help gather data for ASHP and assimilate the results into useful information for all pharmacy technicians and pharmacists. This information will serve as our guide in the next 5 to 10 years.
